TRITECH SERVICES

Tritech Services Ltd
ultimate business
goal and challenge is
customer satisfaction.

COMPANY OVERVIEW

TRITECH SERVICES LTD is a wholly black owned and managed private business Based in South African we specialize in the supply of mining hardware and accessories, mechanical tools, spare parts, electrical hardware and accessorie

During the years of operations, we have mainly concentrated on supplying the Mining industry with occasional supply to the general public at large.

We represent some of the leading manufacturer world over in our line of business and thus are

able to service all our customers required and need in record time.

In times of changes and new challenges it is particularly important for a company to be flexible and mobile. However, fundamental business principles, values and ethical standards should not

be forgotten along the way.

ABOUT TRITECH

MISSION STATEMENT

Its mission is to deliver a peace of mind to customers. Trittech Services aim is to provide an exceptional line of product and services. It brings together a group of well experienced personalities with vast working experience in their various portfolios and this makes this our organization a step above others in terms of our experts and uniqueness. Our Mission Statement also reminds us to constantly side with and center our actions.

To achieve customer satisfaction through superior service delivery, Innovative Technical Solutions, responsiveness and reliability in every thing we do. Our philosophy is to meet and exceed the expectation of all our client requirements.

As Trittech Services we strive to achieve long term and mutually beneficial partnership with our clients.

VISION

To grow our position as the market leader in the overall provision of mining equipment in our country not forgetting other business partners in the continent where business has spread with

Trittech Services.

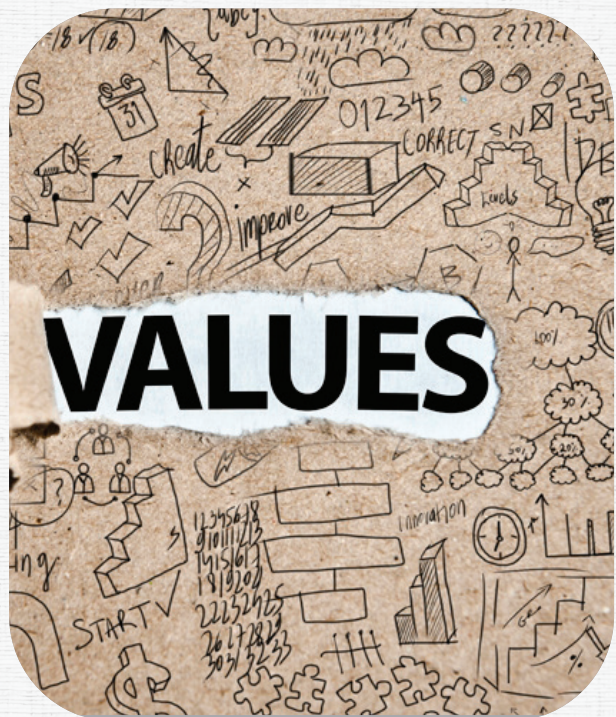

Our vision is to become the leading distributor and solution provider to our customers. We will achieve this through excellence in service, innovation and providing our customers cutting edge engineering solutions and access to leading global product brands.

VALUES

01.02.2021

Tritech Services is customer driven in the area of innovative making it always have fresh ideas about the business with its customers and to be competent and reliable to its customers. In the area of potential optimization, the company creates a culture where an individual can realize their full potential to work on their own and come up with professional excellent results. This gives strength and motivates everyone taking place in doing the job. Tritech together with its business associates constantly strive to maximize its technologies and optimize its market position and costs.

Tritech Services always wants to exceed expectations in its business with the mining company. It provides quality services and products making it achieve the best features. Regardless of exceeding expectations, the company realizes that its expectations are nothing if it does not respect its clients. Tritech Service always respects its clients concerning their views, opinions as well as contributions. We only want to work with the best so that we can develop long-term relationships which are built on mutual trust and respect. Equality also matters with its clients treating every client the same.

- Knife gate valves. Ball valves, gate valves, check valves
- Gear Oil Dispensers
- Welding Equipment – Machines, Rods, Shields
- Industrial Hydraulic Motors and Hydraulic Pumps
- Chain Blocks – One tone, three tones, five tones etc.
- Lighting and Electrical Equipment – Florescent Tubes Advantage Starters, Contactors
- Laboratory Safety Equipment
- Respirators and Cartridges
- Stainless Steel – Pipes, Sliding brackets

OTHER PRODUCTS IN HYDRAULICS

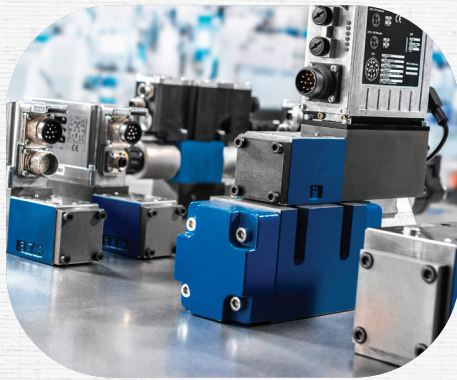

PRESSURE FLANGES

- Complete range of hydraulic fittings (International standards) from 6mm to 45mm.

PARKER HANNIFIN (COMPLETE RANGE OF ERMETO FITTINGS.)

- Parker Adapter
- Parker CPI instrumentation fittings
- Parker A- Lok instrumentation fittings
- Parker Hydraulic hoses & fittings (world class)
- Pneumatics

CARBON STAINLESS STEEL TUBING & FITTINGS:

Ranges from schedule 10 to schedule 160 XX5 ■

Sizes range from ½" to 8" piping & fittings ■

PARKER HANNIFIN (COMPLETE RANGE OF ERMETO FITTINGS.)

- Hoses & fittings
- Pumps
- Valves (Control, pressure, flow, proportional & servo)
- Motors
- Cylinder & actuators (Lineal & rotary)
- Filtration
- Quick coupler systems
- Fire sleeve

SERVICES PROVIDED

- Repair and Testing of Starter motors
- Repair and Testing of Pumps, Motors and Cylinders
- Metal Fabrication
- Electrical Installation and Maintenance

PUMPS AND VALVES

We deal in all types of pumps and valves, Repairing and supplying. We also deal in all types of hydraulic valves

MECHANICAL PRODUCTS AND SERVICES

(i) Plant Maintenance And Machine Installation:
Coded Welding. Pump Repairs. Pipe

Fitting. Mechanical Repairs. Over Head Cranes
and Electrical Hoists. (Supply,

Installation and Commissioning)

(ii) METAL FABRICATION: Structural. Steel Erection.
Tanks. Industrial Roofing Steel

(iii) SPECIALIZED WELDING. Mig Welding and Tig
Welding Autocad

MINING PUMPS

Supply, maintenance and repair of all types of mining pumps and spares.

Our Service

CRUSHER DEALERS AND SPARE PARTS SUPPLIERS

We carry out rebuilds and maintenance of the following crushers.

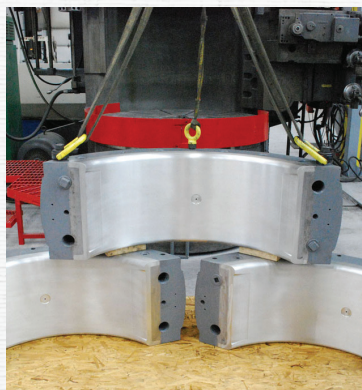

1. Gyratory crushers
2. Jaw crushers
3. MMD Crushers and apron feeders

MILLS

1. Relining of Ball Mills and Sag mills and replacement of Mill grates
2. Replacement of Mill Hydrostatic trunion bearings
3. Replacement of Mill Trunion Inserts
